

MONTH 10 OF 10

Built to Last

309 days of movement — and a lifetime of
it after

30-day guide · muviko.app

309 days of movement — and a lifetime of it after

This month focuses on one core theme across four weeks. Each week builds on the last — read the science, apply the daily actions, track your progress.

Your 4 weeks at a glance

Week 37 Identity-Based Fitness

Week 38 Environment Design

Week 39 The Social Multiplier

Week 40 Your 309-Day Audit

Your daily non-negotiable: 3.4 minutes of vigorous movement, every day. Everything this month layers on top of that foundation.

Weeks 1 & 2

WEEK 37

Identity-Based Fitness

James Clear: 'Every action is a vote for the type of person you wish to become.' You are not trying to exercise. You are someone who moves. The identity shift precedes the habit.

- Mon: Write: 'I am someone who ____.' Fill in the blank with your movement identity.
 - Wed: Tell one person your movement identity. Saying it makes it real.
 - Fri–Sun: Every vigorous burst this week reinforces that identity. Notice it.
-

WEEK 38

Environment Design

Willpower is finite. Environment is infinite. Remove friction: put shoes by the door, set phone timer alerts, take walking routes past stairs.

- Mon: Audit your environment for movement friction. What makes it hard?
- Wed: Remove one friction point. (shoes out, timer set, route changed)
- Fri–Sun: Audit again. What friction remains? One thing per week.

Weeks 3 & 4

WEEK 39

The Social Multiplier

People with an accountability partner are 65% more likely to maintain a new habit. With a scheduled accountability check-in: 95%.

- Mon: Identify one person who would benefit from micro training. Share this guide.
 - Wed: Set up a weekly 2-min check-in: 'Did you hit your bursts this week?'
 - Fri–Sun: Track your consistency in accountability weeks vs. solo weeks.
-

WEEK 40

Your 309-Day Audit

You've built something real. The science says 66 days to form a habit — you've done 280+. Now audit, celebrate, and design what comes next.

- Mon: Return to your Month 1 baseline measurements. Compare everything.
- Wed: Write your 3 biggest changes — in energy, consistency, and how you feel.
- Fri–Sun: Design your next 309 days. The habit is built. Now compound it.

30-day habit tracker

Mark each day you hit your minimum 3.4 minutes of vigorous movement. Print and stick somewhere visible.
